

IZTECH WELCOMES

**INTERNATIONAL FACULTIES
WITHIN THE SCOPE OF TÜBİTAK**

**INTERNATIONAL
OUTSTANDING RESEARCHERS
AND
EARLY-STAGE RESEARCHERS
PROGRAMS**

International Outstanding Researchers Program aims to promote successful researchers who have come to the fore with top level scientific and/or technological achievements in their fields and who have experience to work in an international environment, to conduct their research in Türkiye.

International Early Stage Researchers Program aims to promote young researchers under the age of 40 who have come to the fore with top level scientific and/or technological achievements in their fields and who have experience to work in an international environment, to conduct their research in Türkiye.

The programs include:

- Scholarship for the coordinator
- Family allowance (if applicable)
- Initial research grant
- Research project grant
- Grant intended for establishing a research team (scholarship for up to 5 graduate students and post-doctoral researchers the project coordinator will include in the research team for conducting his/her research in Türkiye)
- Project Incentive Bonus for researchers involved within the scope of the research project
- Institutional share allowance for host institution
- Health insurance for the coordinator and his/her family
- Travel allowance for the coordinator and his/her family
- Mentoring Support

Izmir Institute of Technology is pleased to host highly qualified and young scientists with its advanced research infrastructure in its unique education, science, technology, innovation and entrepreneurship ecosystem.

ABOUT IZTECH:

The İzmir Institute of Technology (IZTECH) has been distinguished as “one of the Top 5 Research Universities” out of 200+ higher education institutions in Türkiye, ranking first in terms of the number of peer-reviewed articles per faculty member.

One of the strategic goals of IZTECH is to advance its position to a leading academic institution in research in European Research Area.

Being an English medium university, IZTECH currently has Engineering, Science, and Architecture faculties with 19 departments with 18 undergraduate, 29 master’s and 15 doctorate programs in 19 majors.

There are currently 6769 enrolled students including 1471 graduate students.

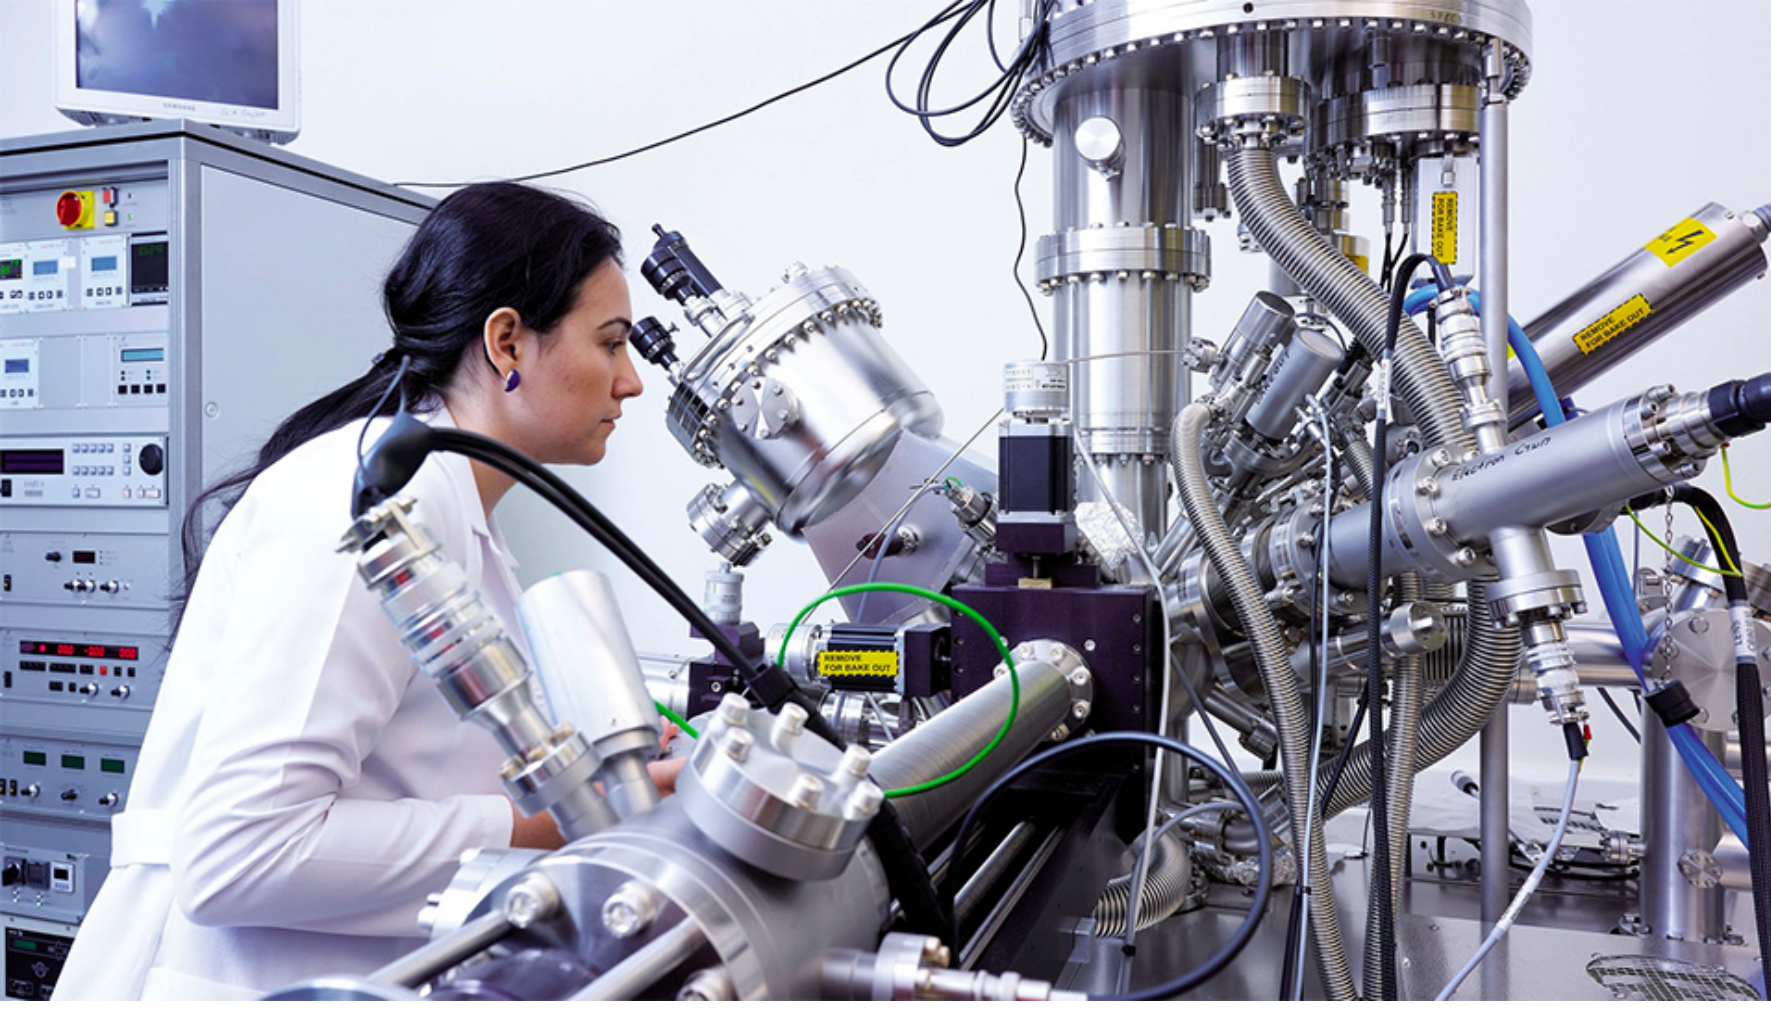

IZTECH has recently been recognized by the European Commission through the HRS4R award for its efforts in improving its human resources strategy and is one of the three EURAXESS Centers in Türkiye.

IZTECH has 354 laboratories, 80% of which are for R&D purposes and 20% of which are for educational purposes. All laboratories contain the appropriate technology for education, teaching and research in various fields.

The Integrated Research Centers (IRC) of IZTECH (<https://tam.iyte.edu.tr/en>) is one of the most equipped and competent research centers in Türkiye, located on 6,250 m2 area. IRC incorporates eight different Application and Research Centers (ARCs) including Environmental Development ARC, Geothermal Energy ARC, Biotechnology and Bioengineering ARC, National Mass Spectrometry ARC, Wind Energy Meteorology ARC and Continuing Education Center.
